The 15th negotiation session was held on Thursday, March 31, on the CCSU campus in New Britain.

CSU-AAUP inquired about the status of the BOR signing off on all the tentative agreements, a list of which had been provided to the BOR on March 9, 2016. The BOR team replied that it was “a lot of tedious work” and they weren’t done yet. They assured us that they would honor the TAs.

The session then turned to a discussion of a footnote change in Table 1 (evaluation timetable) that addresses a necessary point of clarification specific to Counseling Faculty.

CSU-AAUP revised proposals on distance education (10.15), intellectual property (Appendix E), and Library Faculty (Article 8) were discussed, as was our counter proposal on disciplinary investigations (16.6). No substantive resolution was achieved on outstanding issues in any of these areas.

In light of ongoing progress at the negotiating table, the arbitration deadline has been extended until at least June 1, 2016. This extension of the deadline represents a prudent adjustment in support of our aim to reach a fair resolution to several outstanding issues at the negotiating table.

The next negotiation session is scheduled for Thursday, April 21, 2016.
